VOTER

What is early voting?

- It's voting before Election Day! The earlier the better!
- Depending on your home state, early voting starts 10-50 days BEFORE Election Day!

Why is it important?

- Early voters help increase voter turnout.
- Campaigns can move down their get-out-the-vote lists & focus on uncommitted voters.

How do I do it?

- On Day 1 (or as early as possible!), drop off your ballot in person or drop it in the mail slot.
- Find your Day 1 at voteonday1.org
